News Digest.

The steamship *Fulton* is in, with foreign advices of the 8th. The political news is unimportant. The Paris correspondent of the London *Times* mentions a rumor that military men and soldiers now on furlough have received orders to join their regiments as soon as possible. In the Liverpool market on the 7th, flour was reported dull, wheat quiet, and corn declined.

A great fire occurred at Black River Falls, in this State, on Sunday morning, which destroyed the entire business portion of the town. Some forty-four buildings in all were burned. The loss is estimated at between thirty and forty thousand dollars.

The telegraph furnishes us the particulars of the capture of two Mexican war steamers, a portion of MORAN'S Havana expedition to aid MIRAMON. The steamers surrendered after a short engagement. The Mexican loss was 15 killed, and 20 or 30 wounded, and that of the Americans three wounded.

EDWARD BATES, of Missouri, has written a letter in reply to interrogatories propounded to him by the Missouri delegates to the Chicago Convention, a synopsis of which will be found in our telegraph columns.

GOV. BISSELL, of Illinois, died at his residence in Springfield, on Sunday last.

IMPORTANT TO NEWSPAPER PUBLISHERS.—The bill allowing newspapers to print the names of subscribers, with the time at which their subscription expires, on the margin of the paper, passed the Senate Monday. It has previously passed the House, and now only wants the signature of the President to make it a law.

The Death of Gov. Bissell.

The announcement of the death of the Chief Executive of this State, elsewhere referred to in detail, was received among our citizens yesterday with much sensation.—Rarely in the list of deaths occurring in office has the deceased left a more brilliant record, and a more sincere regret at the loss experienced by the public. In this instance the melancholy event came not unexpectedly, but was marked here with scarcely less feeling.

The Courts yesterday were closed, out of respect to the departed, not only as the Governor of the State but as a prominent and honored member of the bar.—*Chicago Press & Tribune.*

CHICAGO.—At Chicago, the Christian Religion is being rapidly introduced, and civilization promises well in that marvellous quarter of the globe. Those who have the matter at heart, commenced by buying a large church, took out the seats, replaced the pulpit with a first class bar, and in place of pews, with hymn and psalm books, the litany, &c., scattered about, there are fifteen new billiard tables, and a thousand cues and balls. This church is now called the Brunswick Billiard Room, (Church) and has already made a vast number of converts. We congratulate our brethren of Chicago on this rapid advance towards Christianity, and the brilliant hope of a business millenium it gives rise to.

THERE IS NOW residing in Elmira, an old lady named Hannah Webber, who reached her twenty-fifth birth day on Wednesday of week before last, and yet is one hundred years old! This remarkable circumstance is attributable to the fact that she was born on February 29th, 1760, and as that was leap year, there has been but twenty-five recurrences of that day from the time of her birth to the present time. Mrs. Webber receives an annual pension of $97 from the government—her husband having taken an active part in the Revolutionary war.

FIRE.—The dwelling house of Benjamin Whittaker, on Main street, was burned down on Friday evening of last week. Nothing of value was saved, and the family were left destitute of even a change of clothing. The fire is supposed to have originated from the stove-pipe running through the ceiling and roof. Our generous citizens ever ready in a case of necessity, immediately provided amply for the wants of the sufferers.—*Central Wisconsin, 15th inst.*

PROPOSED ÆRIAL VOYAGES TO LONDON.—At the meeting of the Boston Board of Aldermen on Monday afternoon, propositions were received from the aeronauts, Wise, of Lancaster, Penn., and La Mountain, of Troy, offering to make ærial voyages to Europe, if the city would defray the necessary expense. Mr. Wise wished to start from Boston Common on the Fourth of July, and thought the expense would be $6,000, while La Mountain estimated the probable outlay at $4,000, and desired to leave in May or June.

ON THE NIGHT preceding the recent great conflagration in Hanville, Ky., a Mr. J. B. Aikin, who lost about $1,000 by the fire, had a dream which impressed him that a great calamity was about to fall upon the town. Accordingly, about three hours before the fire broke out, he secured a policy of $5,000 from the Ætna Company of Hartford. The total loss by the fire is about $300,000, about $60,000 of which falls upon the Hartford Insurance Companies.

AN IMPORTANT SUIT.—A suit involving the title of the whole city of San Francisco is to be commenced in the Supreme Court of Washington, on the 1st day of April next. The claim is made under a Mexican grant to a Catholic priest, and the case rests upon the question of the genuineness of the grant. There is a formidable array of eminent lawyers on the side of the claimants.

FROM STATISTICS LATELY PREPARED, relating to the extent of lunacy among the negroes of the various States of the Union, we find that in Louisville there is one lunatic out of 2,477 negroes; in South Carolina, one in 3,699; in Massachusetts, one in 48; in Maine, one in 14.

THE FORGERY CASE AT ALBANY.—The investigation now in progress at Albany, N. Y., in the forgery case of John H. Zeh, has disclosed notes to have been forged to the amount of over $20,600. The number of notes thus far produced is thirty-eight.

THE ALTON (Ill.) *Democrat* says that a large and splendid convent or seminary for the Sisters of Charity, is to be erected forthwith in that town. This will be the largest structure of the kind in the West, covering an entire block or square, and costing $30,000.

TOPSY, a mare belonging to D. Ricketts and Dr. Crothers, valued at $9,000, died in Jeffersonville, Ia., last week. She had trotted a mile in 2:26, with only four months training. The animal was young, and would, no doubt, had made extraordinary time had she lived.

IT HAS BEEN DECIDED in Washington city that an omnibus driver is not a common carrier of freight, and cannot be held responsible for packages put in his possession for delivery.

GREEN PEAS raised on Charlestown Neck, near Boston, were offered in Charleston, (Mass.) market, on the 8th inst., at $1 25 for two quarts.

THE CITY.

Large Fire.

Yesterday at eight minutes past eleven A. M., fire and smoke were discovered issuing from the old frame building on the south-east corner of Wisconsin and East Water sts. The fire was then confined to the space between the ceiling of the upper story and the roof, and was not burning furiously. The bells promptly sounded the alarm, and the gallant firemen as promptly made their appearance.

From eight minutes past eleven until within a few minutes of twelve o'clock, the fire "confined itself" to this corner building, and the universal remark of all who witnessed the scene was, that they never saw a wooden building burn so slowly. We will not pretend to say *that the fire could have been stayed here.* We do not wish to do injustice to anybody, especially the gallant firemen—but such was the opinion very freely expressed yesterday from one end of the city to another.

When we first saw the fire it could all have been extinguished by one well directed stream. In the course of an hour from the time of the first alarm, it was discovered that the old frame building on Main street adjoining ANDERSON's Confectionary Store was also on fire, and several of the machines repaired to that locality. By two o'clock the entire range of wooden buildings on East Water Street, between Wisconsin street and THROOP's Hat Store, were in a blaze, and we do not think there were over *fifty* streams of water "on" the fire at any one time, and the principal part of those were unusually *powerful.* All the efforts seemed to be directed to pulling down what was burning—shaking it together and otherwise stirring it up to a greater degree of intensity. We saw a man with a pipe playing steadily at a chimney in an opposite direction from the fire, for half an hour. His zeal and perseverance were rewarded by bursts of the most ironical laughter from the thousands on Wisconsin street.

At 4 o'clock the fire had made a clean sweep of the wooden buildings, and nothing but a mass of cinders and ashes remained, beyond which the tall walls of the Newhall, and the brick stores on East Water and Main streets were visible, steaming from the joint effect of heat and water. A portion of the buildings were owned by Mr. ELISHA ELDRED, and we are informed there was no insurance on them. CALEB WALL owned two, one on East Water, occupied by him, and one on Wisconsin street. The former was insured for $500, the latter had no insurance on it. Mr. CRAMPTON owned another. (Insured.)

Mr. G. A. JESSUP, who occupied the building on Water street, adjoining the one in which the fire broke out, is one of the heaviest losers. His stock consisted of clothing, and was worth $10,000, not more than half of which was saved, from the fact that the goods were allowed to remain until late, under a reasonable supposition that the fire would be easily subdued. CALEB WALL had at his Auction Room over $10,000 worth of clothing and books, and he made the remark in our hearing—"Oh that fire is nothing, we will not move our goods."—Afterwards when it became apparent that the flames were steadily, though slowly, increasing to a pitch where it would be useless to attempt to combat them, Mr. WALL and MORSE BROTHER, together with BAKER, (jewelry,) and MURISON, commenced to remove their stock. It was the same on Wisconsin street.

While MORSE BROTHER were removing their stock, some person abstracted from their cash drawer about $30 in change. If the person or persons will leave the same at Uncle BEN's hat store, the owners will satisfy them—if it is to the full amount of the cash taken.

MORSE BROTHER were insured for $500 in the Quaker City Insurance Co. They will open in a few days at No. 222 East Water st., under WEBBER's billiard saloon.

MOSSIN & MARR, engravers, removed all of their tools, &c., with little loss.

Mr. MURISON's loss will not exceed $300.

Mr. EDWARD's loss is about $500.

There were some fears during the early part of the conflagration that the Newhall would suffer, but through the energetic action of Messrs. KEAN & RICE, who stationed men on the roof with hose and brooms, it was unscathed.

The Union Ticket Office, which suffered with the rest, will, for the present, be located at No. 26 Wisconsin street, corner of Main.

MR. FORD ON POW-WOW'S.—Mr. FORD, a School Teacher, writes an exemplary letter to the *Free Democrat*, in which he thus reflects on us:

> "The Teachers had met to hold a '*pow-wow over their grievances.*' By what rule of courtesy or rhetoric Mr. Wheeler, do you drag a peaceful assemblage of the Teachers down or up, as you may please to regard it, to the level of an Indian wigwam, and dignify it with the name of a pow-wow? Have you lost your manners, Mr. Wheeler? We happen to know your mother is not accountable, for she taught you better."

Ever since that unfortunate meeting, we we have been besieged by School Teachers. Mr. FORD and his colleagues have not only beset Mr. WHEELER personally, but have written him almost to death.

Mr. FORD now asks,

By what rule of rhetoric—Mr. WHEELER—do you, Mr. WHEELER, drag a PEACEFUL assemblage of the teachers up to the dignity—Mr. WHEELER—of an Indian pow-wow!! Mr. WHEELER!

"PEACEFUL!" think of that. We thought at the time if we could have dragged it up to the ordinary dignity of an assemblage of nocturnal, Thomas Cats laboring under the disadvantages of cholic, we would have been doing it a service.

Mr. FORD may be a peaceful man, but as our knowledge of his attributes, is limited to the aforementioned pow-wow, and a few spasmodic dodges into the editorial rooms of the SENTINEL, when he expected to find Mr. MCKINDLEY and Mr. WHEELER embracing, we beg to be excused from forming a flattering opinion.

He accuses us of falsifying, and reiterates the charge of collusion with Mr. MCKINDLEY. We have made a clean breast of this before. If Mr. MCKINDLEY bribed his grand-mother's review with a bottle of Cod Liver Oil, it was because Mr. FORD's offer for the same thing was not as valuable.

Mr. FORD asks us if we have lost our manners! We confess, if keeping bad company will lay a man open to this charge, we may have suffered in this respect since that dignified meeting.

What Mr. FORD may happen to know of our mother is impossible for us to say, but what he does say it is wholly impossible for us to reciprocate, for we believe Mr. FORD is much better adapted to receive instruction on that point than to impart it.

MUNICIPAL COURT, March 20th.—James Barton, drunk, penalty and costs $2,47.—Paid.

Patrick Dunn, drunk, penalty and costs $2,86. Paid.

Jas. Ashlam, disorderly, penalty and costs, $2,50 or 5 days in jail.

Rebecca Roberts, vagrancy. Plead guilty and sentenced to 30 days in jail. Committed.

A Good Move.

It is to be hoped that the following petition will meet a favorable response from the Legislature. The necessity of such an enactment is so apparent as to need no elaboration:

To the Legislative Assembly of the State of Wisconsin:

Your Petitioners respectfully ask your Honorable body to pass the law introduced into the Assembly (or some law having in view the same object) to compel Rail Road Companies to faithfully apply their revenues to the payment of their bonded debts, and to protect cities and towns which have loaned their bonds to such Rail Road Companies.

We believe that several Rail Road Companies located in Milwaukee, which have earned enough to pay interest on bonds loaned to them by said city in addition to interest on prior mortgages, have neglected to pay such interest and misapplied the funds, and will continue to do the same, unless compelled by stringent enactments to meet their obligations to the city.

Your Petitioners, who believe that proper amendments to the criminal code of the State should be passed, punishing any such willful misapplication of funds, as embezzlement.

JOHN H. TWEEDY, C. HAWLEY,
LYNDSEY WARD, THOS. L. OGDEN,
JAMES CARTER, E. CRAMER.
And several hundred others.

AN ENTHUSIASTIC MEETING of the Republicans of the Third Ward was held at the Frankfort House, on Monday evening, for the more effectual organization of the Ward Club.

The meeting was called to order at 7 1-2 P. M. by J. S. MITCHELL, who nominated Mr. E. W. CARPENTER as Chairman, and G. HAYWARD for Secretary, after which the Committee appointed at a previous meeting to draw up a Constitution for the Club, made their report, which was accepted and the Committee discharged. Moved and seconded that the report as read be adopted. Carried.

Motion made that we hold our meetings at the Frankfort House. Carried.

The meeting was then very ably addressed by the Chairman, after which the following gentlemen were elected officers for the ensuing year:

President—E. W. CARPENTER.
Vice-President—J. FRENCH.
Secretary—G. F. HAYWARD.
Treasurer—J. T. WALLACE.

The President, by consent of the members, appointed the following gentlemen as a Nominating Committee, to select suitable candidates for Ward Officers, the Committee to report next Friday evening:—J. L. MITCHELL, J. T. WALLACE, H. MIDDLETON, W. MCNAUGHTON, D. LOCKER.

All present signed the Constitution. A motion was made and carried that the proceedings be published in the city Republican papers. After which the meeting adjourned to meet again next Friday evening at 7 o'clock. GEO. F. HAYWARD, Sec'y.

EDITOR OF SENTINEL—*Dear Sir:*—As one of the committee who made arrangements for the lecture of Mr. E. G. RYAN, for the benefit of the Catholic orphans, we acknowledge that unintentionally a great error has been committed in not extending to the gentlemen of the Press of this city the usual courtesy in the shape of tickets. Having little or no experience in affairs of this kind, we took it for granted that such a proceeding was unnecessary, supposing that the gentlemen of the Press always had free access to lectures, and public entertainments, without the formality of passes or tickets; especially in a small city like Milwaukee, where one citizen can always recognize another. The Press of Milwaukee has been at all times not only kind in devoting the free use of its columns, and in printing tickets and bills without charge, but in the gift of money to the Catholic charities of our city. We hope, then, that the SENTINEL, and the whole city Press who kindly called attention to the lecture, will look upon this matter in which the omission occurred, and accept this explanation as an apology. We regret that our omission should have deprived any gentleman connected with the SENTINEL, or any other newspaper office, of the pleasure of enjoying one of the richest intellectual treats that have been presented to our citizens for the last year.

Respectfully yours,
JAMES JOHNSON.

HARPER FOR APRIL.—Tunis & Co. have laid *Harper* for April on our table. We select the following good ones from the Drawer:

A western New York contributor writes:

"The famous inscription—'MARY, *the mother of* WASHINGTON'—upon the tombstone of that immortal woman, has always been admired for its touching simplicity and grand significance. All irreverence aside, I think I can furnish you with an instance of *simplicity* of another kind, though its significance may not be appreciated by your many readers without a hint at the calibre of the author.

"Not a thousand miles from here lives a lawyer, so styled by courtesy, for his knowledge of law extended only to his dexterity in getting his neighbors into difficulty, without the ability to help them out. His father, an unpretending but worthy citizen, died a few years since, when his hopeful son caused to be erected over his remains, where it still stands, a stone with this inscription:

IN MEMORY OF
ABEL JOHNSON,
FATHER OF GEORGE P. JOHNSON, ESQ."

"A LITTLE five-year old at La Crosse, who had been 'properly brought up'—as most little boys in Wisconsin are—to say his prayers every night, one evening, when all ready for bed and not in the best humor, he was reminded of his duty, but replied: 'I'm not going to say my prayers to-night.' His mother asked him if he did not intend to ask God to take care of him. 'No, said he; 'when I was *little* it was well enough to ask Him to take care of me, but now I'm big enough to take care of myself.'"

"I THINK the following will satisfy you that the ideas of the rising generation in Wisconsin are sound on the Maine question:

"A three-year old, the property of my next neighbor, saw a drunken man 'tacking' through the street in front of their house.—'Mother,' said he, 'did God make that man?' She replied in the affirmative. The little fellow reflected a moment, and then exclaimed: 'I would'nt have done it.'"

IN ANSWER to Mr. E., in the *Free Democrat* last night, be it known that no contract was made for *rotten* or *worthless* wood by *any one* of the School Commissioners of the Seventh Ward, and that the Chief of Police was requested to remove it. No money or school orders was ever allowed or paid for said wood, and I may state further, that in the Seventh Ward School, during the last year, no more than $3,50 was paid for a cord of wood, and that in school orders. The public may judge. A. BADE,
School Com., Seventh Ward.

RICHARDS' ROTARY BELLOWS.—Ladies and gentlemen are invited to call and see a working model of the above named invention for blowing organs, melodeons, &c. It will be on exhibition at A. B. VAN COTT's Jewelry Store, corner of East Water and Wisconsin streets, Wednesday and Thursday, March 21st and 22d.

THE "IRREPRESSIBLE" LOLA MONTEZ lectures to-night on "John Bull," at Albany Hall. We presume there is no need of advice—everybody is anxious to see and hear her.

Union Ticket Office Removed.

The Union Ticket Office, burned out to-day, is removed to 26 Wisconsin street, corner of Main, where the traveling public will find tickets for all points East and South, by railroad. mar21d1w

CITY AUCTION ROOMS.—I am burned out! Where I will appear next, it is at present difficult to say. I desire to express an opinion of the fire. I think it was unnecessary. The fire, for some time after it had originated, could have been extinguished with little or no exertion. There was little wind; but for some reason, which I cannot explain or account for, the fire was allowed to extend and consume an immense amount of property. I must say, as a citizen of Milwaukee, the Fire Department did not do their duty.

It may have been desirable to have the old buildings removed, but it was certainly not right or justice to imperil the property of so many people, and make the Insurance Companies foot the bill. CALEB WALL.

N. B.—In a few days I will be open again somewhere, and I hope all my friends will remember me. My loss is more than I can bear conveniently just now; but I submit with patience. C. W.

NEW PUBLICATIONS.—The Illustrated London News, Feb. 25th, contains a splendid colored picture, together with some beautiful wood cuts, making on the whole one of the handsomest numbers ever issued of that truly beautiful paper; "Footfalls upon the Boundary of the Other World;" "L' Femme;" Harper's Magazine for April; Godey's for April; Ballou for April. Everything that is new, in the book and periodical line is always to be had at No. 25 Wisconsin Street.

Republican City Convention.

A REPUBLICAN CONVENTION of five delegates from each Ward of the City of Milwaukee, will be held at the Court House in Milwaukee, on Saturday, March 24th, 1860, at 10 o'clock A. M., for the nomination of candidates for the City Offices, to be supported at the next Charter Election. The primary meetings for the election of delegates, and the nomination of Republican Ward officers, will be held on Friday, 23d instant, at 7½ o'clock P. M., at the following places:

1st Ward, at Bielfield's Saloon.
2d Ward, at Kormann's Saloon.
3d Ward, at Frankfurt House.
4th Ward, at Menomonee House.
5th Ward, Niagara House.
6th and 9th Wards, at Schenck's Park Saloon.
7th Ward, at Court House.
8th Ward, at Nodlen's Saloon.

For many years all attempts to place the city government in capable and honest hands, by means of democratic nominations or people's tickets, have proved disastrous failures, and the resulting evils have finally culminated in unparalleled and intolerable official corruption. The time has now come when the Republicans of Milwaukee are called upon to perform a grave duty to the city by nominating and, if possible, electing to the city offices honorable and fearless men, and also, to discharge an obligation to their own great cause, which they have already too long neglected, by effecting a thorough and permanent city organization.

If the nomination of a Republican ticket for the city election could prove an obstacle to the removal or mitigation of the grievous municipal evils under which we suffer, that would, of course, be a strong reason for postponing still further a distinct city organization. But the experience of the last five years shows that no relief can be expected from a people's movement, which is always controlled and used by disappointed and unworthy aspirants for democratic nominations. We have already incurred too much disgrace by contributing to the election of corrupt officers through these people's movements. At this time, when the election involves not only the peace and good order, but also the gravest financial interests of our city, we should be inexcusable, if, under the plausible pretext of a people's ticket, we should incur the risk of a league with thieves and robbers. For it is manifest that a people's movement at this time must embrace large numbers of dishonest men, and if successful carry into power some of the most unworthy office seekers of our city.

The Republicans are therefore urged to elect delegates, who will nominate the *very best men*—men who are not intriguing, worthless office-seekers, but honest, responsible citizens; men of *clean hands*, in which our citizens will deem our municipal interests secure; men who will *command the support of the tax-payers* of this city, and attain as well as merit success at the polls.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Later from Europe.

NEW YORK, March 20—3 P. M.

The steamer Fulton arrived to-day. She left Southampton early on the morning of the 8th, and brings London papers of the 7th, and Liverpool, 6th. At the latter place cotton had generally declined; flour dull; wheat quiet; corn declined; sugar quiet; coffee dull.

The steamer Bohemian, from Portland, arrived at Liverpool on the 7th.

In the House of Commons Monday, during an incidental discussion of the question of the annexation of Savoy, Mr. Fitzgerald expressed an earnest hope that Parliament would enter a solemn protest against that act.

PARIS, March 8.—The Moniteur announces that yesterday the minister of the U. S. presented his letters of credence.

The Paris Constitutionel publishes an article explaining the French policy in Italy.

In mentioning the solution proposed in the message of M. Shovenel, the Constitutionel says if it is not a Sardinian resolution, it is an Italian one. Sardinia will possess in Tuscany an ally which will aid her to overcome the opposition of Naples and Rome in order to constitute the Italian nation with the concurrence of all its nationalities, and not an Italian Kingdom absorbing everything without considering the essential differences, opposing interests and the distrusts of Europe.

The Times' Paris correspondence says there is a rumor that military men and soldiers now on leave, are to join their regiments as soon as possible.

The Imperial Guards are not to be exempted.

The Cardinals and Prelates, who are members of the Senate, have presented petitions demanding the maintenance of the Imperial power of the Pope.

The correspondence of the Post have received despatches from all parts of Italy.—The Emperor's speech has not been received very favorably.

The Times' correspondence says there has been a complete stagnation in the mercantile world during the past week.

VIENNA, March 5.—The official Weener Zietung will publish to-morrow the following programme of reform, sanctioned by the Emperor:

The Counsel of the Empire will be augmented by the nomination of two extraordinary councillors, selected from among persons of known ability, and by the nomination of thirty-seven ordinary councillors, chosen from a list to be presented by Provisional Diet; the Council of the Empire will examine the budget, central laws relating to financial matters, laws of general interest, &c.; the formation of Provincial Diets and all questions submitted to its deliberation by the Emperior, until the convocation of the Provincial Diets; the Emperor will complete the Council of the Empire, by appointing persons of great distinction on the basis of population.

Engagement between the Frigate Saratoga and the Mexican Steamers.

NEW ORLEANS, March 20—9 P. M.

Miramon commenced the siege of Vera Cruz on the 5th; On the 6th 21 steamers appeared before the city, which refused to show their colors. Com Jarvis therefore ordered the Saratoga, with attachments from the Savannah and Orebez, on the steamers Indianola and Wave, to proceed to the anchorage and ascertain their character. As the Saratoga, towed by the Indianolia, approached, the steamers tried to escape, but too late. Capt. Turner sent a boat out with a flag to demand the nationality of the steamers.—The boat was fired upon twice, whereupon the Saratoga fired a broadside into the steamers of Moran, and the action became general. Both steamers now hoisted Spanish colors, and after a spirited engagement Moran surrendered with most of his men.—American loss 3 wounded, 1 mortally; Mexican loss 15 killed, 20 to 30 wounded.

Washington Matters.

WASHINGTON, March 20.—9 P. M.

The Senate had a short executive session to-day, and took parliamentary measures with a view of resuscitating the Nicaragua treaty, which was recently rejected. There are indications of success.

The conferance of the Republican Senators this morning was with reference to the subject.

The friends of Senator Bigler think it of sufficient importance to deny as wholly untrue, the newspaper statement that previous to his election as a delegate to the Charleston Convention he pledged himself to vote for Mr. Douglas after the third ballot.

The bids for the P. O. blanks have not yet been opened, but Mr. Croswell, to whom the work has heretofore been subject, states that he has proposed to do it for 90 cents on the dollar, less than the government has heretofore paid.

The subject of changing the place for holding the Democratic National Convention is still under consideration. The National Executive Committee may be convened next week, according to present information, to take such action as will quiet the public mind on the subject.

The Senate Harper's Ferry Investigating Committee, after examining several more witnesses, will close its labors. Nothing of special interest has been elicited.

NEW YORK, March 20—9 P. M.

The agents of the steamship Hungarian give the following as the number of souls on board when she left Liverpool, viz: from Liverpool, crew 80, cabin passengers 30, steerage 40; from Queenstown, cabin passengers 15; steerage 40; total 205. The names of the cabin passengers are J. E. Wilson, Mr. and Mrs. Balmer, Rev. Jas. Stuart, Mrs. Woods, Mr. & Mrs. E. Evans, Dr. and Mrs. Samamigo Barry, A. B. Cortin, Mr. Hyatt, Mr. Baulten House, Mr. Bolton, Mr. Delano and child. Dr. Barrett and G. J. Nash, officers in charge of the mails.

Steerage passengers—H. M. Coffrey, Abram Tagg, Wm. Vegel, Jno. Richardson, Henry Richardson, F. Allen, Fred. Child, Mrs. F. Child, Bell Morrison, Richard Madden, Robt. Morton, E. D. Bartlett, Geo. Shank, Geo. McDermot, Joseph N. Daley, Jno. Delany, Wm. Kerley, Wm. Wright, Michael Lacey, Martin Deans, Francis Richardson, Miss Ellen Sheehan and Patrick McMeuir.

Bates Explains his Position.

ST. LOUIS, March 20—9 P. M.

Edward Bates has addressed a letter to the Missouri delegates to the Chicago Convention, in reply to an interrogatory propounded to him by them. It will appear in to-morrow's *Democrat*. The main points are as follows:

Has no new opinions on the subject of the extension of slavery; none formed with reference to present array of parties. He is coeval with the Missouri question of 1820.—Formed his opinions, then and has not changed them since; is opposed to the extension of slavery, and, in his opinion, the spirit and policy of the Government ought to be against its extension. The Constitution does not carry Slavery into Territories, nor anywhere; it only acts upon it when it is established by local law.

The Dred Scott case only decides Scott was not a citizen, and opinions of Judges beyond this are extra Judicial and no authority. The questions discussed by them were political, and not within their cognizance, and belong and could be disposed of only by the political departments. The discussion was most as unfortunate, as it produced the dangerous conflict between co-ordinate branches; government favors the colonization of free blacks in the American tropics.

From the Plains.

ST. LOUIS, March 20—9 P. M.

The Santa Fe mail, from Pawnee Fork, arrived to-day.

Arrangements are made for an escort of troops, twice a month, with a mail going and coming.

All the mails laying at Pawnee Fork, to the 5th inst, have gone through.

Very few Indians were seen, and those were friendly.

Parker's train of twenty-five wagons was passed at Diamond Springs, coming in for goods.

The grass in the valleys of the plains is getting to be good, almost enough for mules to subsist on.

A few emigrants to the gold mines were met. All getting along well.

Steamship Commerce Foundered.

PHILADELPHIA, March 20—9 P. M.

The barque A. A. Herbert, at this port for Cardenas, fell in with the steamship Commerce from New York and bound for Galveston, on the 14th inst., in distress, having become unmanageable while rendering assistance to others. During the night the barque rescued 22 persons, being all hands, including three passengers. In the morning the gale moderated, when she took the provisions and baggage, and left the Commerce settling fast, with 9 feet of water in her hold.

BALTIMORE, March 20—9 P. M.

The Second Congressional District Democratic Convention to-day elected W. S. Gettery and T. Moffet delegates to Charleston. Resolutions were passed strongly against squatter sovereignty.

HARRISBURGH, Pa., March 20—9 P. M.

McKellar's State Capital Mills were entirely destroyed by fire last night. Loss heavy.

Apportionment of the School Fund Income

The apportionment of the income of the School Fund for the present year has just been made by the State Superintendent—a few days earlier than last year. The whole sum distributed is $139,651 to 279,302 children, giving 50 cents per scholar. Last year, 64 cents a scholar was distributed to 264 352 children, making a total of $169,352.

The three counties receiving the largest amounts of the public money, as having the largest number of children, are Milwaukee, Dodge and Dane. Douglas and Shawano counties receive the least, neither of them getting over $100.

While there has been a considerable increase in the number of children, there has been a serious diminution in the increase yielded by the School Fund during the past year, arising from the fact that State lands to the value of over $130 000 have been forfeited during the year, and from other causes. This and the deduction of $15,000 set apart for township library purposes, materially lessens the rate apportioned to each scholar.

We publish below a table of the amount apportioned to each county in the State:

Distillation of Fresh from Salt Water.

Yesterday a number of gentlemen visited Gray's Bathing House, at the foot of Fulton Street, Brooklyn, for the purpose of inspecting "Normandy's Patent Marine Aerated Fresh Water Apparatus," already largely in use in England and on the Continent, and now being first introduced to the American public. This machine, invented by Dr Normandy, an Englishman, distills from salt water or from impure and muddy water, a pure and sparkling aerated beverage—the very product of the babbling meadow-springs. The agency used is steam, which can be generated in a boiler adapted for the purpose, or supplied from the regular boilers of a steamship. The apparatus consists of two compact cylinders, occupies very little room, and is easily arranged in any vessel. Other machines have been constructed heretofore for the same end, but the following advantages are claimed for the one under consideration.

1. That, with a given amount of fuel, it produces a quantity of fresh water double that obtained by any other apparatus.

2. That it *aerates* the water at the very moment it is produced, with the super-oxygenated air and carbonic acid naturally contained in the salt water operated upon, and thus makes it pure, wholesome, and immediately fit for drinking; whereas, all other plans for producing fresh water from salt water merely proceed on the common still, and the water produced by them requires to be aerated by agitation in the tanks, either by the motion of the ship while steaming or sailing—a method of aeration which requires a considerable time—or more rapidly, but also in a more costly, fatiguing, and cumbrous manner, by artificial means, the result being, however, in either case, a very imperfectly aerated water; in consequence of which it remains vapid and indigestible, but is, at the same time, exceedingly susceptible of being tainted by any impurity in the atmosphere by which it is surrounded. All water, simply distilled, is always indigestible, and, whatever is the quantity of ordinary atmospheric air which it is made to absorb, it retains for an exceedingly long time a detestable odor and taste.

3. That beside affording a great advantage to passengers by providing them with a constant and unfailing supply of pure water at sea, equal to any that can be had from the finest springs on land, it, at the same time, confers an immense advantage on shipowners by enabling them to carry an extra amount of freight equal to that occupied by the water tanks which are requisite in every ship.

It is claimed that by using the apparatus, vessels have been able to dispense with water-tanks, so as to make room for many tuns more cargo, and thus pay the expense of the machine in a single voyage. In England Dr. Normandy's invention has been thoroughly experimented upon, and adopted not only by the "Oriental," "Royal Mail," "North of Europe," and other prominent navigation companies, but by the Government, who intend putting it in use on every vessel in the Navy. It is already applied to the steamers belonging to the China squadron, to the Military Hospitals at Suez, and to many army stations where times or drouth are frequent.

The machines are made of three or more sizes, costing from $1,000 to $2,500 and capable of distilling and aerating from 15 to 30 gallons per hour. The distilled water runs out in a steady, cool stream, and is as pure as can be desired. The operation can be witnessed for a few days at the place above named. Further information relating to it can be obtained at the office, No. 30 Pine street.

Attention is drawn to the fact that this apparatus will prove as invaluable on land as at sea, wherever there is a scarcity of good water. Not only salt water, but that of any kind which is bad or impure, can be rendered as good, clear, and wholesome as that which rises from the spring. It is, therefore, of value in all Southern, Western, or other States where good water cannot be obtained.

In a Tight Place.—A well-digger at Dubuque, named Norton, was about to fire a fuse, when his candle upset and set the train on fire. He rushed to the bucket and signaled to "haul up." The man at the windlass made superhuman efforts, and had hauled Mr. Norton within ten feet of the mouth, when the handle of the windlass broke! Mr. N. caught a foothold on the projecting shelf, and thereby saved himself from falling to the bottom. But his position was anything but desirable, as he was in no way protected from the explosion, while it was only by almost superhuman efforts that he kept himself from falling from the narrow standing place. There was no way to get out, and he was sure to be riddled with the shower of rocks that would rise from below. Thus he stood momentarily expecting that a terrible death would ensue; stood thus in an agony which cannot be imagined. How long the time was he did not know; but it seemed ages rather than seconds, until a sufficient time had elapsed to induce the hope that the blast would not explode. This proved eventually to be the case, although he probably suffered a dozen deaths before the fact became apparent.

Maryland Opposition Convention.—The American members of the Legislature have recommended the calling of a State Opposition Convention, to be held at Baltimore on the 13th day of April next. They have also declared it expedient that "all the citizens of the State opposed to the present Democratic party should take measures at once to make their opposition effective by organization and the union of all the elements of such opposition."

Fatal Accident.—An old gentleman of the name of Harris, living in the Norwegian settlement in Strong's Prairie, was yesterday found lying insensible by the side of a hay-road leading into the marshes, four miles west of this village. He had started in an ox-wagon, for a load of hay, and was probably thrown out by a jolt of the wagon, and either run over by the wheel or kicked by an ox; the back part of his head was crushed, and Dr. Thompson thinks he was internally injured. He died soon after he was taken home.—*Adams Co. Independent*, 13th.

Resignation is an exalted Christian virtue. It is a plant that grows not from nature's soil. It is a grace that must be cultivated like the rose tree, that it may flourish and shed forth its sweet fragrance amid the passing scenes of life.

Good actions, though they diminish our time here as well as bad actions, yet they lay up for us a happiness in eternity; and will recompense what they take away by a plentiful return at last.

A person was repeating before Martainville the old maxim, "Who pays his debts enriches himself." "Bah!" replied Martainville, "that is an idle rumor which creditors are endeavoring to circulate!"

The Slaves of Civilization.

The Edinburg *Review* for January has an interesting article suggested by an examination of various works, relating to mortality in the trades and professions. The result of investigations made in England, into the condition of the laboring classes—not merely those who labor in the dark places under the earth, but those who are engaged in the processes by which articles of taste and luxury are prepared—will be startling to all, who, surrounded by the appointments of easy life, have given no attention to the multiform perils which environ those by whom those appointments are supplied. The mirror which reflects our features, and the glazed cards which we leave on our friends, give no token of the trembling form of the artificer, poisoned by mercurial fumes, or paralyzed by the hazardous toil by which he sought to earn his livelihood. The porcelain vase on the mantle is of rare beauty, but it has infected the "dipper's" hand with a disease which will destroy its cunning. All this suffering proceeds, the workman falls out of the ranks and another rises to take his place, reckless of the fate that awaits him and gratified with the increased compensation awarded to his labors.

In this day more "silver forks" than ever before are manufactured at Sheffield. These forks, and needles also, are ground upon dry stones, the grinder necessarily sitting in the posture best adapted to fill his lungs with the fine dust, and to wound his sensitive eyes with the steel sparks. The dry fork-grinder averages 29 years, and thus exemplifies at an early day, the solemn ritual, "dust to dust." Some dry grinders wear spectacles, and these are often found flecked with bits of steel, which, when red hot, penetrate the glass. This same dry-grinder, in order to give the smoothly rounded back to a razor or a scissor blade, sacrifices his health and life to the unimportant difference between the straight and the curved line which he forms. The statistics of Sheffield show that the ascending grade of longevity is in direct proportion to the amount of water used on the stone, the strength and age of the grinder being considered. Yet, we are informed that matters are not so bad as formerly. The introduction of fans to blow the dust away from the stone, of magnetized wire screens for the face, and the general adoption of the beard movement, by workmen mature enough to raise these hirsute appendages, have added to the length of life. Still, the grinders say the trade is bad enough as it is, and if the men lived longer, it would be so overfull that there would be no such thing as getting a living."

Now as to the miner—and of the 300,000 persons in Great Britain who enter the bowels of the earth at the morning and emerge at evening. Beneath the soil he works—the very industrial Atlas of England—sustaining the wealth and greatness of that country which without its coal and iron, its copper and tin, and its giant machinery feeding upon them and reducing them to new forms, would not enjoy its present proud pre-eminence. Here, in the cold and dark mines, the miner toils, cramped in position, till the Apollo-like form of man becomes perfectly twisted and bent like the gnarled root of an oak, which has been doubled up in the fissure of a rock." In these galleries two feet high, pursuing the vein of metal or coal, and picking at the side and top, the collier lives his life of toilsome constraint, knotting himself till an erect position is a punishment to him. Foul air surrounds him; fire-damp blasts him to a cinder or choke damp noiselessly blots out his life. A single blow of the pick may let in upon the collier an invasion of either one of these damps, and the pit mouth may be crowded with a "wailing multitude of newly made widows and orphans." Thus 1,500 live and 10,000 accidents annually attest the dangerous nature of this vocation. In all England the mortality among miners from accidents alone, is 4.5 to the thousand; in Staffordshire alone 7.3 while in Prussia it is only 1.9, and in Belgium 2.8. Then add the diseases caused by deprivation of light and air, by the foul breath of the caverns and of the decaying timbers in them, and by the volumes of coal dust taken in to the lungs. When the collier dies, his lungs look as if dipped in black ink. The dry-grinder has a similar lung.—The average of sickness among colliers between the ages of twenty and sixty is 67 per cent., more than the general average. Yet the coal mines can be ventilated at a cost of a penny per man per day. This ventilation will save ten fold its cost, in the increased labor done by the colliers, and the preservation of the wood "battrices" in the mines.

In the Cornwall mines, the workmen, after a day of toil, are obliged to climb ladders for many hundreds of feet to reach the mouth of the pit. This is equal to the labor of ascending a mountain.

All trades that are carried on in dust, are more or less immediately productive of disease. Millers, masons, brick-layers, snuff makers, pearl button makers, preparers of hair, flax beaters, and many others, all suffer from diseases, peculiar in many of their symptoms and effects to the special trade, but bearing a general family resemblance.

Strangely enough, one of these curious and patient investigators of health, finds that scavengers and chiffonniers are remarkably healthy. Human life meets filth nowhere more closely, yet the investigator finds them "a healthy-looking ruddy-complexioned race," wearing their natural rouge under their artificial tint. The impurities with which these people come in contact are, however, in the open air, and moreover the power of ashes to absorb noxious emanations must be considered. But scavengers are unusually exempt from febrile complaints. It is known too that the occupation of tanners and workers in oil, and of butchers, has a certain exemption from pulmonary complaints. Some curious facts are mentioned by the Review, in this connection, which we must omit.

The lucifer-match maker with his cadaverous complexion, emaciated form, and necrosis of the jaw, is another instance of the slavery of civilization. Phosphorus, in one form, so essential to bone, is, in the flames of the match factory, destructive to it. The chemist brings his results to bear here, and it is found that the oil of turpentine exposed in saucers, where this match-making proceeds, absorbs the mischievous vapor.

The gilder of metals and the silverer of mirrors are other sufferers. While the process goes on, the workman is invested with mercurial fumes; his body is spotted with metalliferous particles, and he becomes a "shattered human creature, with trembling muscles, brown visage and blackened teeth." The belle who surveys her wondrous beauty in the glass would start back in horror if the visage of this victim of luxury and vanity, should but appear in dim shadow, far down the depths of her clear reflector.

Some of our green, arsenous wall paper produces disease. If its pestilential influence thus affects even him who occupies the room ornamented with it, what must have befallen the operator who prepared it, or the artisan who smoothed it to its band on the wall?

So with workers in lead and plants. The approach of disease in these cases is signalled by an azure line near the edge of the gums, and where this blue flag is hoisted, the workman may well rise from his avocation, lest his bread-earning hand drop powerless by his side. A drop of sulphuric acid to a gallon of water makes a lemonade which prevents or postpones the familiar "painters' colics" or paralysis.

A large contingent to the army of death, is furnished by tailors, bakers and milliners in large cities. They are mostly killed by want of fresh air, which does not reach them in their constrained positions or in their confined or heated rooms. The story of sewing women need not be told here. Their sufferings are elements of our advanced civilization, as well as that of England. And from the very nature of the case, their wants and perils are most familiarly known, but known only to be pitied or disregarded.

Proceeding to the educated classes and to those having more means of self indulgence, another problem is presented. These do not enjoy length of days. They lack the wholesome stimulus of labor, and one element of health and longevity is eliminated. Vital force is fed upon regularity, sobriety and activity of body and mind. Comparing the three professions of law, medicine and the pulpit, the race is close, but the pulpit leads by a trifle, and the lawyer succumbs before the physician. This statement is based, however, only upon a comparison of persons who have already passed the age of fifty. As the ranks of the nobility are entered, longevity is inversely proportioned to the eminence of the rank, and the King fenced in by all the divinity that doth hedge him about, guarded from casualities, and carefully screened from disease or harm, drops into the grave ten years before the clergyman.

"It could be clearly shown," says Mr. Nelson, in his Vital Statistics, "by tracing the various classes of society in which there exist sufficient means of subsistence, by beginning with the most humble, and passing on to the middle and upper classes, that a gradual deterioration in the duration of life takes place; and that just as life, with all its wealth, pomp and magnificence, would seem to become more valuable and tempting, so are its opportunities and chances of enjoyment lessened. As far as the results of figures admit of judging, this condition would seem to flow directly from the luxurious and pampered style of living among the wealthier classes, whose artificial habits interfere with the nature and degree of those physical exercises which, in a simpler class of society, are accompanied with long life. Truly, there is a spirit of compensation in this life, if we could only distill it forth. The poor countryman of thirty years of age, who takes his frugal repast under a hedge, has a chance of thirteen years longer life than the monarch of the same age, clothed in purple, and lord, perhaps, of half the habitable world!

The lady who took everybody's eye, must have quite a lot of them.

Tom Sayers and the Benicia Boy.—On Wednesday night there was a strong muster at Ould Nat's, Cambrian, Castle Street, Leicester Square, to witness the staking of the third deposit £50 a side for this match. The staking of course was a mere matter of form, especially on the part of the American champion, the whole of whose money has been some time in our hands. The crowd on the occasion was caused in some degree by the excitement anent the fight between Mace and Travers on the same day, but more especially by the expectation universally prevalent that the Benicia Boy, who had been present at the mill, would have put in an appearance. In this, however, the Fancy were doomed to disappointment, the Boy, with commendable prudence, keeping himself out of temptation, and sending an embassador to the Cambrian Court in the shape of Jack Macdonald, to see that all was straightforward and shipshape.

On Thursday Heenan called on us to report himself, and we at once perceived that he had been anything but idle during his brief sojourn among the Wiltshire downs. He was evidently in rude health, and fast verging upon fighting trim. His mug was much thinner than when we last saw him, and there was an elasticity and buoyancy of spirits about him which showed that the formidable task before him evidently did not disturb his dreams. The only complaint he had to make was, that he was hunted almost beyond endurance by the curious, who would hardly allow him even to have his meals in peace. So great was the nuisance becoming, he said, that if persisted in he must, however reluctantly, give up his training quarters, admirable as they were in other respects, and betake himself to some other retired nook, where none but his most intimate friends could find him.

This system of persecution is too bad, and we appeal to the sporting public to restrain their curiosity until the great event comes off, when every opportunity will be afforded of scanning the proportions of the gallant Yankee. It is somewhat hard that a man who has come so far at his own expense should not be allowed to accomplish the job he has undertaken. Heenan returned to his training quarters on Thursday. His colors are red, white and blue borders, surrounded by the thirteen stars, and bearing the motto, "May the best man win." They may be had on the usual terms of Nat Langham, Cambrian, Castle street, Leicester square.

Tom Sayers, we are told, is doing his utmost to get fit, and begins now to see the importance of leaving no stone unturned. He comes to London to morrow, (Monday) to take his benefit at St. George's Hall, as announced elsewhere, and on Tuesday morning resumes close work at his favorite head-quarters. *Wilke's Spirit* contains nothing of importance concerning the match, beyond a contradiction of Heenan's statement, which we published, that he would fight at 12 st. 7 lbs, or thereabouts. Our worthy cotemporary says Heenan cannot fight under 13 st. 7 lbs, or 189 lbs. We again put the question to Heenan on Thursday, when he positively assured us he would not exceed 12 st. 7 lbs, and in corroboration of this assertion both he and Macdonald stated that even now he does not exceed 13 st. Time will show—*Bell's Life, Feb. 26.*

Anecdote of the Pope.—The London *Times'*, (February 22d) Florence correspondent, furnishes the following anecdote regarding His Holiness, which is regarded authentic:

"A few days ago he was walking out of the Porte Angelica, preceded and followed by his Noble Guards, accompanied by two Monsignori. He was conversing with these prelates on various matters, when he stopped short before an old countryman who was kneeling on the high-road, soliciting his blessing. "Are you a Christian?" asked the Pope; and the poor fellow, all taken aback, was dumb, the question was again and again repeated with sharp eagerness.—"Please your Holiness, I am," (*Santo Padre, si*,) at last stammered out the countryman. "Do you know the Ten Commandments?" pursued the apostolical catechist. "*Santo Padre si*," was again the answer; whereupon the Pontiff bade him tell them one by one. The poor dumbfounded fellow tried one or two, then jumped over to the fifth or sixth, perceived his mistake, and his confusion became worse confounded, till he fairly broke down. The Pope then walked on with his suite and said triumphantly, "Let the people learn God's Commandments by heart, and then they will be fit for independence."

"HEIDSIECK & CO."

CHAMPAGNE.

THIS CELEBRATED WINE, OF THE above well-known brand, is unsurpassed for its rich bouquet and general excellence.

The varieties of brands of champagne tend greatly to doubt; to confuse the purchaser; but lovers of good and genuine wine, must look for "Heidsieck & Co." in full on the label, as well as on the corks and capsules.

Also, Pinet & Co's Brandy Vintage, 1842. Connoisseurs of fine brandies have pronounced this to be fully equal, if not superior to any imported into the United States during the last twenty years.

The above may be obtained of J. W. LEDYARD, 161 East Water street,
Wholesale Dealer in Imported Brandies, Wines and Liquors, and Havana Cigars. mar2

New York Advertisements.

From S. M. Pettingill's Agency.

SOUTH AND NORTH:

OR,

Impressions Received During a Trip to Cuba and the South.

BY JOHN S. C. ABBOTT.

1 vol., 12mo, 352 pages. Price $1.

VOICE OF THE PRESS.

From the New York Independent.

The VERY BEST BOOK ON SLAVERY YET ISSUED. Sound, judicious, kind, Christian, and most timely and faithful. * * * The author rehearses in a graphic way the measures of violence which "SOUTHERN AGGRESSION" has of late so systematically pursued; and, while condemning the crazy zeal of John Brown, he shows that his heroic self-denial for the oppressed puts to shame the coward fury of the South for oppression. Yet the tone of the book, while candid, frank and manly, is always kind and gentlemanly; NOT SECTIONAL BUT FRATERNAL; not partizan but Christian. He points the South to the simple remedy for existing evils, by substituting wages for the lash, free labor for coerced toil.

From the New York Tribune.

Its animated descriptions, and the frankness and cordiality of its tone are adapted to give it a favorable reception, even with readers who differ most widely from him in opinion. The topics to which this volume is devoted, and the spirit in which they are discussed, though they may arouse a tempest of opposition from those who regard silence as the only guaranty of safety, will secure it a wider circulation among the Friends of Freedom throughout the country.

From the Atlanta (Ga.) Confederacy.

It is a contemptible *Abolition* production, written in a very readable style, and well calculated to taint the minds of the young.

From the Detroit Christian Herald.

It furnishes valuable information on the questions now agitating our country.

From the Hartford Evening Press.

His impressions are such as would be derived by any honest fair-minded Northern man. It is warm, direct, eloquent.

From the New York Observer.

The book is intensely and avowedly abolition.

Richardson's Irish Linens, Damaks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character.

LAUGHTER.

BY WM. H. BRANNAN.

Let me exult in a tumult of joy;
Blame not my spirit for chanting a tune,
Wild as the notes of a frolicsome boy—
Sweet as the musical matins of June!
Nothing in nature should make man sad,
She laughs aloud in her thunder and rain;
Earthquake and tempest proclaim she is glad—
Shaking the cobwebs of care from her brain,

Chirruping crickets that haunt the old hearth—
Pewees and sparrows that nest in the eaves—
Bird, beast, and insect, all over the earth,
Laugh at the lubberly fellow that grieves!
Sunshine laughs out in the gay forest trees—
Shadows are laughing and dancing below;
Meadows are joyous with honey-fed bees—
Fools only whine at the phantom of woe.

Hail is but laughter, that tickles the side
Of old mother Earth, in her winter of sleep;
Snow is a blanket of laughter, spread wide
To cover earth's fun in a jollified heap;
Stars laugh and wink at each other on high—
Fun finds a place in those far-away clouds—
Thunder, that carols all over the sky—
Nothing at all but the laughter of gods!

Facts for Farmers.

TRAINING STEERS.—This is an art that every one has not the faculty to practice. It requires a great deal of patience, judgment, skill, in short, to know how, and the ability to do what you know. Four pair of steers can be trained at once with nearly the same ease as one. The first step is to shut them into a well fenced yard, with an area of from twelve to sixteen square rods, where the driver can stand in the center and make the steers travel around him. They should be kept going in pairs, or Indian file, until they will allow his approach—until they learn to be handled without fear, which is an important rudiment in the education of an ox. In doing this, the same patience and gentleness should be exercised which is expected of the teacher of a school—a patience which never yields to vexation. In a short time they will allow themselves to be yoked on either side, and can be driven anywhere, either in or out of the yard. Four days spent in this way will better train steers to the yoke than four months of miscellaneous farm service, and they will be better cattle for all kinds of teaming, and sell for a higher price. The drilling in the yard should be continued until they can be driven with ease. To learn them to stand when left to rest, they need hitching as much as a span of horses. When steers are trained to drive well in the yoke, the entirely different operation of training them to work should be commenced. This should proceed by degrees, with light loads and short journeys, until they give evidence of ability as well as knowledge. Oxen can be trained to work well with as little expense to the natural spirits of the animal, as the horse, and it should be the aim of every ox-teamster to train his cattle to work well without discouraging or abusing them.

HULLED CORN.—One of the luxuries of American farm life is hulled corn. Yet not one in ten of farmers families ever enjoy it. It is particularly acceptable in the Spring of the year, when old vegetables are on the decline, and new ones have not yet come into use. When the farmer burns wood, a white ley may be made in a few minutes, or cobs may be burned and a ley made of the ashes, into which put the corn to be hulled, which should be large, white flint corn, and let it remain until the hull will slip easily, and then rinse it thoroughly with cold water, rubbing it with the hands or stirring it with a stick till all the hulls are washed off. Feed the hulls and chits which come out to the pigs or hens, and boil the corn for yourself until it swells to three times its original size, and is as soft as bread. You may prepare and boil a gallon at once for half a dozen, and what is not eaten at first may be warmed over just as you would potatoes. Those who have no wood ashes or cobs to make weak ley of, may hull corn by using a teaspoonful of saleratus to a quart of corn, in water enough to cover it. In either case the ley must be made hot after the corn is put in to loosen the hull; and if it is not carefully washed it will taste of the ley unpleasantly.

GRAPES FROM HEAVEN.—Wm R. Prince, son of Wm. Prince, of Flushing garden and nursery notoriety, is a strong believer in spiritualism. We have often heard him declare that the spirit of his father continued to direct him. Last year he was passing through his garden, and discovered in a place where a vine could not have not been long growing without attracting his attention, a very remarkable vine, apparently three years old, bearing twenty bunches of the most delicious grapes he ever tasted. They were but a very little less delicious than the very nectar of Heaven. No one about the place could tell anything about this vine, how or when it came there. It was new to all. So he called up the spirit of his father and the old grape-grower informed him that he did it. He procured the plant from the planet Juno, and sent it down to him for the benefit of the world, and incidentally to the benefit of his dear William, who was directed to exercise his skill in propagating and multiplying this Heaven-descended vine. This, dear William has done, and now offers the young sprouts at the cheap rate (considering where they come from) of $5 a vine. Who'll buy? Who'll buy? Grapes from Heaven, who'll buy?

CHEAP NAILS.—The cheapest nails are not the lowest priced ones. Cut nails made of good quality will out last such as can be bought at the lowest rates about two to one. Never use nails for siding or shingles that break very easy; and be sure not to allow your carpenter to use nails of very light weight. First-rate cut nails of suitable size may cost 25 per cent. more than the poorest and lightest, but in the end they are a 100 per cent. the best. Nails made of poor iron will rust out a great deal quicker than nails made of good tough malleable iron, like that known as old sable.

BININGER'S OLD LONDON DOCK GIN

A. M. BININGER & CO.,
(ESTABLISHED 1778.)
SOLE IMPORTERS
No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the

Medical Profession and the Family,

Possesses those INTRINSIC medicinal properties [Tonic and Diuretic] which belong to an

OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.

COMMERCIAL.

MONETARY.

TUESDAY P. M., March 20th, 1860.

No improvement, as yet, in the money market. Exchange is quoted firm at 2 ⅌ cent premium. Money very scarce and bank discounts close. We have the following by telegraph from New York to-day:

STOCKS—Ill C bds 90¾; Pac Mail 97¾; Canton 20; N Y C 73¼; Erie 10¼; R 90; Harlem preferred 35½; M C 41; M S 95½; Pana 134½; I C 62½; Gal & Chi 63½; Chi & R I 66.

COMMERCIAL.

TUESDAY P. M., March 20th, 1860.

Receipts by Railroad for the 24 hours ending noon to-day include:

Flour, bbls	554
Wheat, bus	6,160
Oats, bus	750
Barley, bus	449
Corn, bus	260
Rye	70
Hides, No.	30

Nothing done in flour to-day. Excepting one sale of very choice superfine at $4,37½. We heard of no offers for spring extras.

There were light receipts of wheat, as will be noticed, and a very dull market. On 'Change we heard $1 was offered for No. 1 on the track, but there were no sellers. A sale of 2,000 bus of the same quality was made at $1,01, for delivery in store April 1st. Extra dull and heavy, best samples not going outside of $1,06¾.

In coarse grains, barley was the only article in which there was any activity. The range for this was 60 to 70c for common to very choice qualities. A couple of lots of shelled corn sold at 50c on the track and 52c delivered.

THE FREIGHT BUSINESS of the Detroit and Milwaukee Railway is increasing so rapidly since their late reduction of rates, that the Company have found it necessary to charter the *Cuyahoga* to run in connection with the *Detroit* until the *Milwaukee* is ready for use, which will probably be within a week. The *Detroit* has done good service since she re-commenced running, crossing the lake in five and a half hours, and taking large loads eastward upon every trip, but notwithstanding this she has been unable to keep pace with the rapidly growing business of the route. Both the steamships, we imagine, will have all they can do, until after the opening of the Straits, at least. We hear expressions of satisfaction on all hands amongst our merchants, at the despatch and regularity with which they are running their goods over this route.

ANOTHER REDUCTION IN RAILROAD FREIGHTS.—The Detroit & Milwaukee Railway Company have again reduced their Eastward freights. The rate on flour from this City to New York is now 90c, and to Boston $1,10. These rates are actually *lower* than the rates from Chicago to the same places. The effect will be to induce a large movement of flour eastward from this point before the opening of Lake navigation.

A Chicago firm to-day made a contract for the shipment of several thousand barrels of pork from this city to New York by way of the Grand Haven route.

HIGH PRICE OF BREADSTUFFS AT ST. LOUIS.—The comparatively high price of breadstuffs ruling at St. Louis for some time past, must doubtless have been a subject of enquiry in the minds of many, and it is well to enquire into the causes which make flour worth *more* in the latter place at the present time, than in the city of New York. The St. Louis Merchants' Exchange *Reporter*, of the 14th, speaking of flour, says:

> The market for this article presents some singularities this season, so far, that operators find great difficulty in accounting for. For instance, the Eastern cities are overstocked, (such is the general impression,) the export demand light, and yet at home we have advancing prices at a time when supplies of wheat and flour in consequence of the opening of navigation, should be liberal. These supplies, however, are not even adequately sufficient for the demand, and with all our expectancy of a *fair surplus* in the country for shipment, the decrease which marked last year's receipts continues at about the same ratio. We shall, at this rate, have to reverse the order of trade, and make purchases at New York for western consumption. A month later must determine. City superfine is now commanding $5,90@6,00, and extra $6,50@9,00, while in New York we noticed quotations of Missouri on the 3d, at $5,60@7,50. Messrs. H. D. Wallbridge & Co. of that city, estimated the stocks of flour and grain in that market on the 1st inst., as follows:
>
> | | |
> |---|---|
> | Flour, bbls | 650,000 |
> | Wheat, bus | 1,300,000 |
> | Corn, bus | 50,000 |
> | Oats, bus | 1,000,000 |
>
> Stock of wheat made up chiefly of Chicago spring and Milwaukee club, the supply of prime white being very small.
>
> This may not be considered a very heavy stock, especially as the imports are this season falling largely behind those of a year ago. Up to the 3d inst., from Jan. 1st, 152,776 bbls flour had been received at New York, against 201,200 for same time last year.
>
> At such a point we suppose 10,000 bbls flour will cover the stock. As to wheat, the mills have all the supplies, none being in store on buyers' or sellers' account. As regards the growing crop, we hear of a heavy amount of damage by "winter killing." It would seem that the injury sustained is more general and disastrous than before known for several years. Advices from the country in relation to such matters are more or less exaggerated always, but at this time the weighty additional evidence presented every day on 'Change in the way of sales for spring *seed*, goes far to establish the prevalent reports. Prime and choice qualities of red and white reached $1,45@1,50 on Thursday and Friday last. These remunerative rates must certainly develop the residue in the country, and thus solve a problem about which no little interest is at this moment manifested.

It will be noticed according to this authority, that the principal reason given for the present unusual prices at Saint Louis, is the supposition of a short supply in the country, based on the fact that "the decrease which marked last year's receipts continues at about the same ratio" thus far this year.—Similar arguments might, and have been used by the bulls in this locality, for the deliveries of wheat at this city since the 1st of January are no larger than the receipts for the corresponding period in 1859. There are several reasons which might be assigned for this state of things, but the main question arises, does this supposed deficiency justify the opinion which seems to be entertained at St. Louis, viz: *that purchases will have to be made at New York before harvest for Western consumption*. We by no means think it does, and would advise our friends on the Upper Mississippi to await the effect of the thorough resumption of river navigation upon the St. Louis market before investing very largely in hopes of *famine* prices on any such grounds.

RECEIPTS OF PRODUCE AT ST. LOUIS.—The Merchants Exchange *Reporter* publishes the following statement of receipts of produce at St. Louis by River and Railroad for the week ending March 14th, and since January 1st, as compared with the receipts for the same time last year:

The *Gazette* of yesterday morning says:

In the provision market on Saturday, there was continued firmness on the part of holders, but no activity Of mess pork, 1,000 bbls deliverable at Ripley, sold at $17. For city brands $17,37@17,50 were the asking rates, with buyers at $17,25. Bulk meats were held at 6½@6¾c for shoulders, and 8¼@8½c for sides.—The only sale was 70,000 lbs shoulders at 6½c. There was some demand for bacon at 7¼c, and 9¾c for shoulders and sides, but holders resolutely contended for 7¾@9¾c. Holders of lard do not care to part with the article for less than 10½@10¾c, but nothing over 10¼c was obtainable. A lot of 200 bbls, at Maysville, sold at this figure. The export movement continues fair. The shipments Saturday were 289 hhds and 320 tcs bacon, 635 bbls and 163 bxs pork. About 2,500 bxs middles will go forward to Europe this week. Flour was dull at $5,40@5,50 for superfine, and $5,60@5,85 for extra. Whisky advanced ¼c, closing at 19¾c. Sugars were in good demand and firm at 7¾@8½c for low fair to choice. NEW YORK DRY GOODS MARKET.—The *Independent* in its review of the New York dry goods market for last week says:

The business at auction has become active, and is preventing private sales to any extent. The crowd of goods now pressing for sale through the auction rooms is depressing prices. French goods, both silks and dress prints, are lower. There is a rush to sell, which deters rather than invites buyers. The sales have, however, been large, but at lower prices, and a further depreciation seems anticipated, for the quantity of goods yet to sell seems large. Linens are dull. Woolens are in very moderate request, with large stock. In domestic goods we observe rather less activity, with a better supply. The demand continues from the South, who have long since dispelled the pretended fears of politicians that they would abstain from buying. Their purchases have been greater than usual. Western buyers are still few. The manufacturers are all busy to order, and are using more than their ordinary supply of the raw material. Prices of cotton staples are firm, with a good export demand, and prints are doing better than of late. Fancy cassimeres are dull. Silk mixtures are mostly wanted. The general aspect of trade in the interior is favorable. Collections are improving. Many buyers are in the market with money in hand to make their purchases. A good trade in every section is anticipated.

MARINE ITEMS.

TUESDAY, P. M.

The steamship *Milwaukee* was expected to leave Chicago for Grand Haven to-day. If so, she will be ready to commence running in connection with the *Detroit* early next week.

RIVER NEWS.—The Winona *Republican* of Saturday contains the following items with reference to navigation on the Upper Mississippi:

The *Grey Eagle* arrived at our levee early this morning from the foot of the Lake. She loaded with produce for the St. Louis market.

The *Chippewa Falls* came up this morning from LaCrosse with a small load of passengers and freight.

The *Canada*, *Denmark*, and *Fred Lorenz* are on the way from St. Louis to Lake Pepin.

Capt. Harris thinks he will be able to go through Lake Pepin on his next trip up. The ice there is getting very porous, and will soon give way if this weather continues.

We find the following items in the Detroit *Tribune* of last evening:

MOVEMENT OF VESSELS.—Sail vessels as well as steamers are beginning to move freely. On Saturday the schooner Fortune arrived at this port with a cargo of coal from Cleveland. Since then the brig Walbridge, schooner Freeman and Whittle Sea have passed up in ballast, to load with lumber at ports above. The schr. W. R. Hanna also passed up with stone from the Islands for Port Huron.

The schooner Star passed down in ballast, and the scow Enterprise with a load of lumber for Fremont, O.

The Forester, which got in to-day, reports that the Kaloolah made another attempt on Saturday to reach Goderich, but owing to the ice was unable to get within fifteen miles of that port.

The late south-east wind seems to have started the ice from the Canada shore of Lake Huron, as large bodies of it were seen by the Forester above Lexington.

STILL ANOTHER.—The propeller Ontonagon is to be added to the Detroit and Lake Superior line, as a consort to the Lady Elgin. The O. is a very staunch and fast boat.

SALE.—The propeller Hercules was bid off last Saturday at Sheriff's sale by Messrs. Pridgeon & Barse for $615. A good bargain for the money. She will probably run in the lumber trade between St. Clair river and the Lake Erie ports.

The Great Secret at Last Discovered!!

JUNIUS JUDSON,

PATENTEE AND MANUFACTURER OF

JUDSON'S PATENT

GOVERNOR VALVES,

FOR REGULATING THE

MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

☞ Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1850. Reissued, Jan. 4th, 1851. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or recoil of the engine,) the power to open the valve, just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.

I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvement,) by which infringers have cut with my improvement, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent actions upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations.

THE GREATEST

MEDICAL

DISCOVERY

OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then on the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D. Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. F. Burt, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Moris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. * * Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"Lowell, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease,—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in a large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

AYER'S CHERRY PECTORAL.

THROUGH A TRIAL OF many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick everywhere may have before them the information it contains.—Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four-fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the Headache, Heartburn, and their kindred disorders, because the stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores, and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your Stomach and Bowels need strengthening into healthy action.—Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quickly as they are taken—They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousands know them. Take the Cherry Pectoral for a cough, and the Pills for all derangements requiring a purgative medicine.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by JOHN RICE, Milwaukee, J. H. REED & CO., Chicago, and all Dealers in Medicine everywhere.
